Sustainability

Furniture on the Move started out with the goal of delivering beautiful furniture to your events. Now almost 15 years later and with over 300 ranges in our portfolio, we are one of the leading suppliers in the industry.

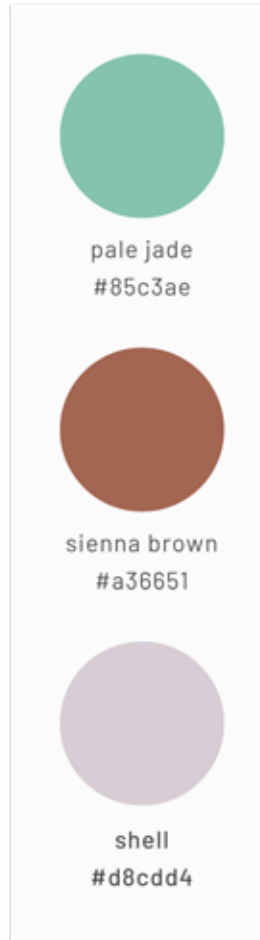

Our teams travel all across Europe sourcing unique items that are not only stand-out pieces, but part of a series of curated collections infused with the latest trends in interior design.

Ranging from the cool north to colourful boho eclecticism, we want our furniture to reflect the uniqueness of your event.

We believe our designs tell contemporary narratives and we are presenting our favourites to you here.

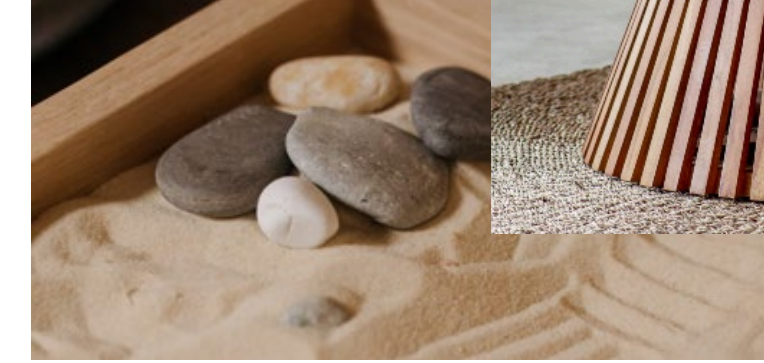

Furniture on the move

JAPANDI

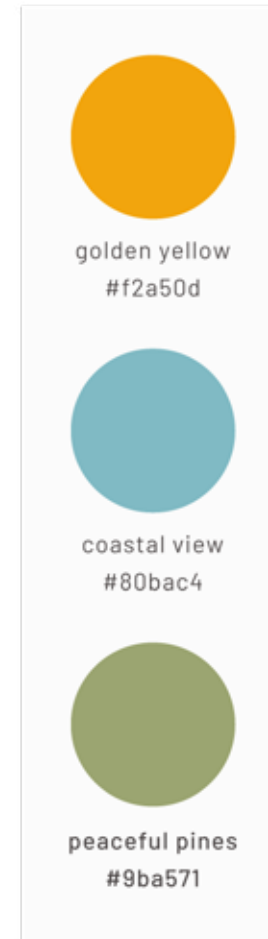

Japandi tells the story of the perfect balance between Scandinavian minimalism and Japanese design. Beautifully balancing clean lines and well-curated designs with neutral tones and the art of having less. There is an emphasis on craftsmanship and sustainability, by choosing designs that are built to last and bringing natural materials such as wood and rattan into focus. The result: a style that is both sophisticated and relaxed.

HYGGE WABI-SABI

SECRET OASIS

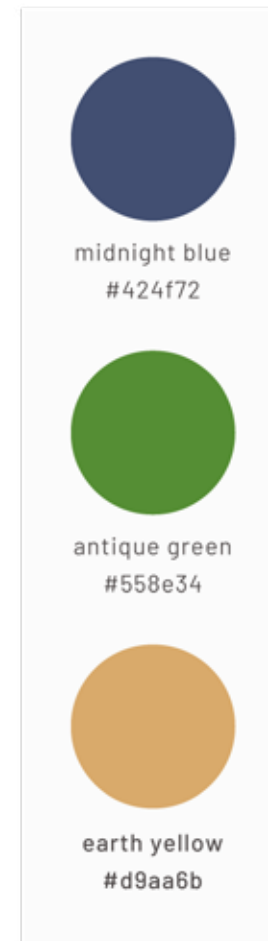

A chapter that transports us to our favourite summer destination on a warm, sunny day. We have sourced a variety of ranges that bring modern design to any outdoor (or indoor) space. Unique features such as intricate rope detailing and mid-century frames highlight the contemporary design of these pieces, creating spaces that are stylish and relaxing.

WANDERLUST

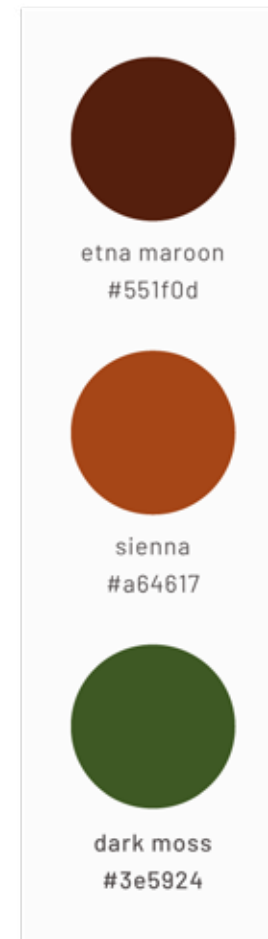

The word describes "a strong desire to travel and explore the world". This style unapologetically layers a mixture of elements of decor creating a narrative of life and culture. Breaking the rules by combining the old with the new, thinking outside the box with eclectic textures and contrasting patterns. A melting pot of influences taking us on a visual journey.

SUSTAINABILITY

The protagonists here are eco-friendly materials and re-purposed items as we prioritise designs that have a positive impact on our environment. Vintage and recycled items have been incorporated creatively in a new setting, giving the space a lived-in feel and the objects a second life.
