

RHM have been an approved graphics supplier at Tobacco Dock for over six years.

Across the team we have an intricate knowledge of the venue and the restrictions and requirements of working in a listed building.

We have detailed survey layouts of most of the graphic areas available, and any other areas we offer a no charge survey and drawing service.

HANGING DISPLAYS

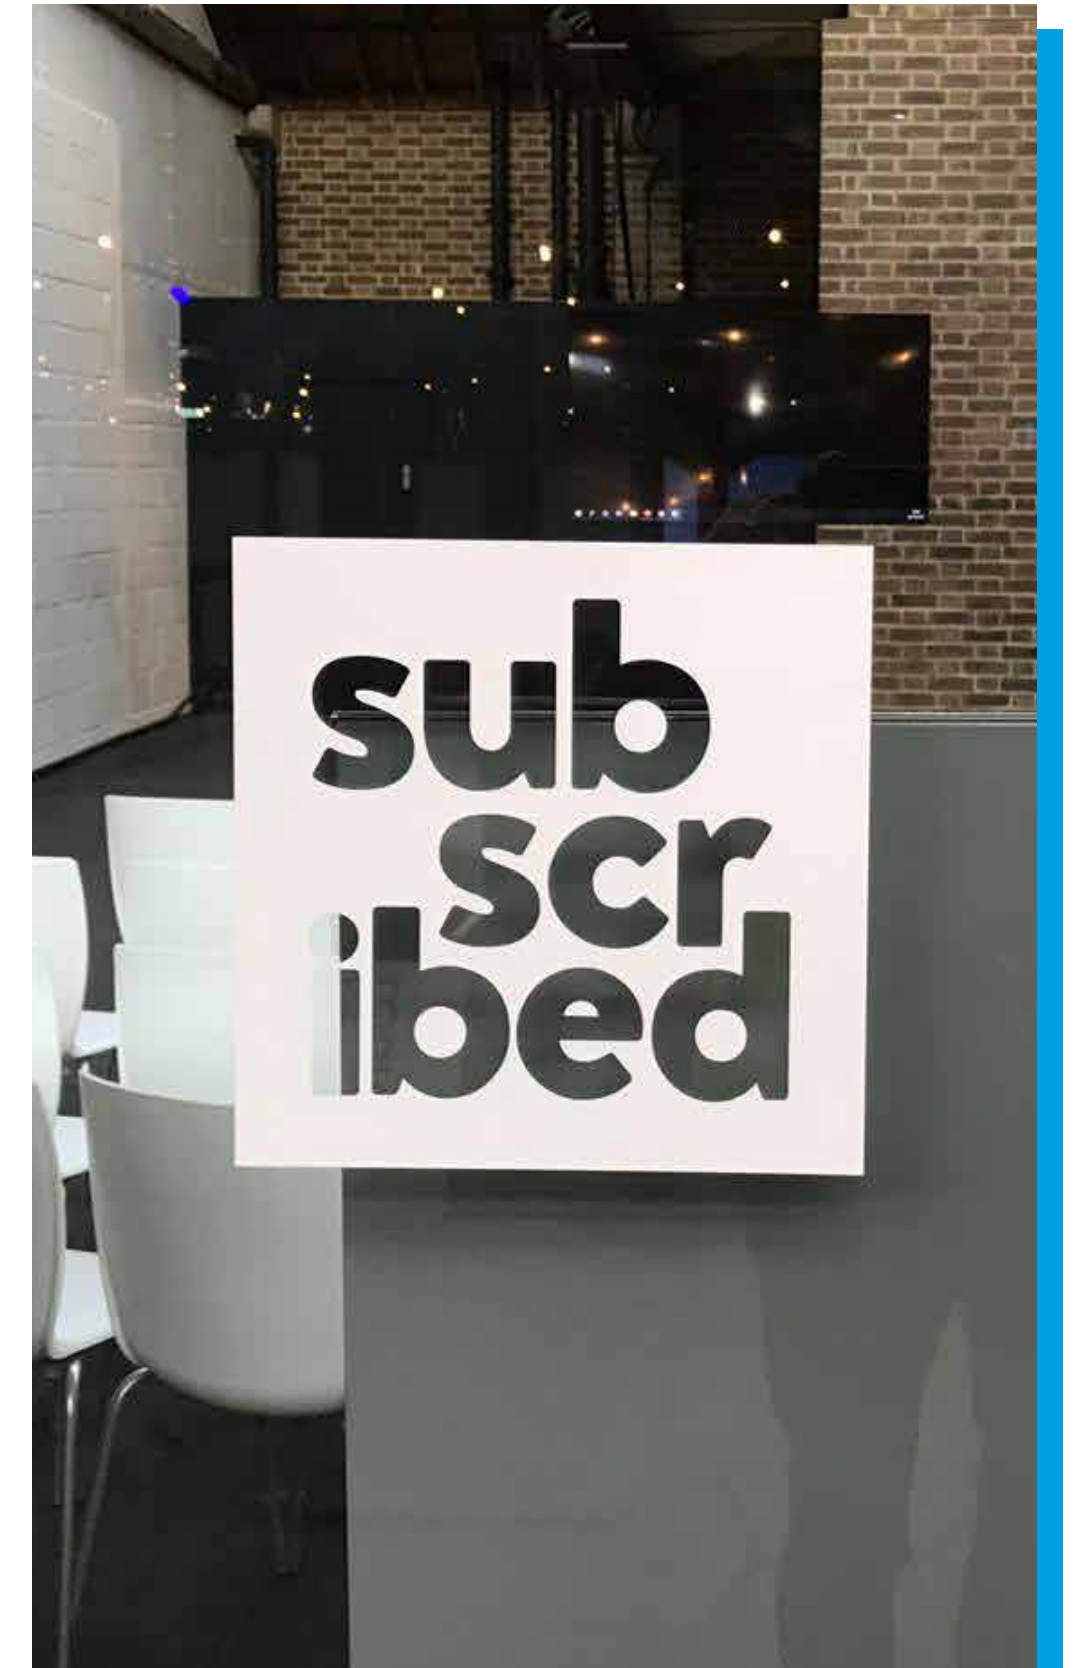

Whether it be hanging from existing over door signage, lamp post signage, balustrade graphics, truss displays or hanging beam graphics, we have you covered.

FREESTANDING DIRECTIONAL

RHM have a wide array of both rental and purchase options for freestanding directional displays to use throughout the Dock.

WINDOW GRAPHICS

With a huge amount of brandable glass within Tobacco Dock, the options are vast. We know the type of materials to use for best finish and those that don't leave a mess on derig.

CUSTOM CONSTRUCTION

- ▶ Archway displays to fill the space.
- ▶ Fully sustainable room branding displays.

- ▶ Entrance column clads for both Pennington St and Wapping Lane.

- ▶ TV Display units.

RHM have a commitment to working as sustainably as possible across the business.

We are Fespa accredited, ISO14001 Environmental Management accredited and work in partnership with Isla.

We also work in conjunction with Event Cycle to repurpose graphic elements for Schools and charities across the country, and also engage with them to help manage waste “afterlife” post event.

RHM have been working alongside material suppliers, recycling & waste management companies and internal staff to find best practices to work more sustainably.

We have produced a number of large-scale set and graphic projects over the last 3 years with a great final finish.

We have a large RHM install team with a long history of working in Tobacco Dock and a dedicated project manager to oversee production through to onsite install.
